

TrustedStays

Your Path to the Amadeus GDS

What Distribution Run actually means for your business

GAME DEBRIEF

1-page companion

The game is a metaphor for getting onto the Amadeus GDS — here's how each piece maps to real life.

TrustedStays is the only platform putting individual professionally-managed short-term rentals onto the GDS.

Hands-off GDS management. 600,000+ travel agents reachable. \$156bn corporate accommodation market.

IN THE GAME

→ IN REALITY

● Catch corporate guests	Corporate guests stay ~2 nights on average. 84% of GDS bookings check in Monday-Thursday. See box below for who they are.
● Accreditation (QiT / VisitBritain / ISAAP)	Accreditation gives corporate buyers and IATA-accredited travel agents the independent quality assurance they expect. TrustedStays works with three main providers globally — we introduce and support, the body awards.
● Industry Membership (ARL / STAA / ASAP)	Membership signals professionalism to corporate buyers. You must be a member of at least one to be eligible to list. The choice is yours — STAA and ARL are our UK partners; we work globally with sector equivalents.
● Rate Access Codes (BAR & COR)	Corporate buyers expect a negotiated rate. BAR is your best available rate; COR is the discount you offer corporate procurement teams through the GDS.
● Policies (24h cancellation + 1-night LOS)	Corporate travel demands flexible cancellation and short stays. These policies must be loaded for your property to be bookable through the GDS.
● PMS integration	Two ways to connect: (1) live PMS sync via Guesty or Hospiria, or (2) direct integration with TrustedStays' open API if you run your own custom PMS.
● Unlock Amadeus GDS go-live	Six real requirements: (1) industry membership, (2) accreditation, (3) PMS integration, (4) implementation form, (5) testing, (6) go-live.

CWT (Carlson Wagonlit)
Relocation Agents — assignee & project stays

Scale of the network

600,000+ travel agents · 75,000 search queries per second

HOW TRUSTEDSTAYS HELPS YOU CLEAR THE BARRIERS

The four orange-triangle hazards represent the real barriers between you and the GDS. We don't do the work for you — we introduce you to the right partners and support you all the way through.

Technical: we own the PMS-to-GDS connection, rate loading, and ARI sync

Legal & compliance: we guide you to insurance, accreditation, and policy requirements — you complete them

Contract & implementation: we negotiate the TMC and GDS contracts so you benefit from the platform-level agreement
